DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-30 and 45-70 and 72-73, drawn to a plastic optical article.

Group II, claim(s) 31-44 and 71, drawn to a method for forming a plastic optical article.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is anticipated by U.S. Patent No. 3,718,383. Accordingly, the special technical feature linking the two inventions, a plastic optical article, does not provide a contribution over the prior art, and no single inventive concept exists. Therefore, restriction is appropriate.

3. A telephone call was made to Michael Pomianek on 3/11/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
